PROJECTS

Pokemon Generator - A pokemon search app that allows the user to search any pokemon of there liking. The application was rebuilt in React JavaScript and the api was fetched from a pokemon API

Serenity - A mental health app that gives users the tools that can help them throughout the day such as listen to music, track their mood and funny memes to look at. The app was built in React TypeScript and is currently still under development

EDUCATION

CodeStack Academy - 12 month Program, 3 month internship

2022-2023

Ronald E McNair Highschool - Diploma

2016-2020

WORK EXPERIENCE

CodeStackAcademy - Intern

2023-Current

- Collaborated with a team of developers to design, develop, and test software applications, gaining hands-on experience in the software development lifecycle.
- Showcased a strong sense of responsibility and professionalism, consistently delivering high-quality work and meeting project milestones
- Engaged in daily stand-up meetings, discussing project progress and roadblocks while ensuring open communication with team members.

Lowes - Sales Associate

2022-Current

- Assisted customers with product selection and provided expert advice on home improvement projects, leading to increased customer satisfaction and loyalty.
- Participated in regular training sessions to stay updated on product knowledge, safety protocols, and company policies.
- Assisted in inventory management and conducted periodic stock checks to ensure product availability and reduce out-of-stock situations.
